

# Outlook Web App for Starter, StarterPlus and Professional Mailboxes

Published 17/05/2011 09.00 AM | Updated 21/01/2013 02.32 PM

How can I access my Starter, StarterPlus or Professional mailbox from the internet?

Starter, Starter Plus, and Professional mailboxes are supplied with Microsoft Outlook Web App, which allows you to connect to your mailbox through a web browser from anywhere. This allows you to view and send email without the need to install or configure software on your computer. In addition to the features listed above, Outlook Web App allows you to do the following:

Create server side rules that can be used to automate tasks as emails arrive, such as moving emails from a particular email address into a specific folder, or forwarding emails to another email address.

View your calendar and schedule appointments with your colleagues.

Set up autoresponders to automatically send a reply when an email is received in your mailbox.

Certain features may be unavailable depending on your mailbox type. For the full range of features you can [upgrade to a professional mailbox](#).

More information on Microsoft Outlook Web App is available at: <http://www.microsoft.com/exchange/2010/en/my/outlook-web-access.aspx>

## Difficulty

Beginner

## How long will it take me?

Less than a minute

## What will I need?

A Starter, StarterPlus or Professional Mailbox. [How can I create a mailbox?](#)

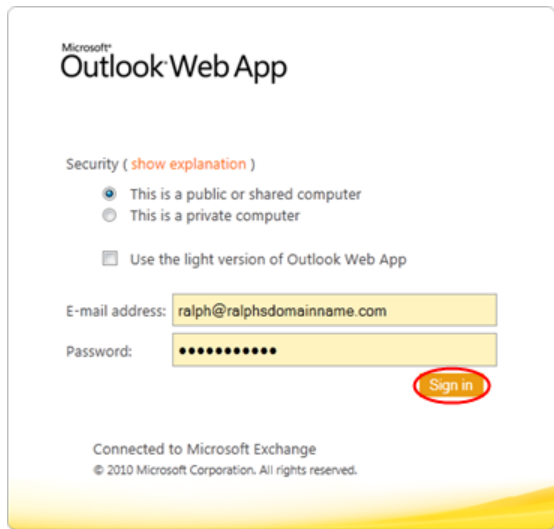

Your mailbox username and password. [Where can I find these details?](#)

## Accessing Microsoft Outlook Web App

You can securely access Microsoft Outlook Web App using SSL encryption at: <https://login.livemail.co.uk>.

Enter your full email address in the **E-mail address** text field, and enter the password you chose when you created the mailbox in the **Password** field. If you have forgotten your password you can [change it within your Fasthosts control panel](#).

Click **Sign in** to login to your mailbox.

## Where to get further help

The online help accessible from Outlook Web App provides easy to follow instructions on how to use the software if you need additional assistance. The help is available from the top-right corner of each page.
